

Generating P1 Actual table from P1 Typical table

The [P1 Typical table](#) can be instantiated by creating [P1 Actual table](#).

To generate a [P1 Actual table](#) from a [P1 Typical table](#)

1. Create a P1 Resource Types Typical Quality Requirements Description table with at least one measurable Resource added.
2. On the table toolbar, click the **Evaluate Measurements** button. A new P1 Actual table is created.
3. Add actual values for all Actual Measurements in the P1 Resource Types Actual Quality Requirements Description table.
For each Measurement in the [P1 Typical table](#), an Actual Measurement is created and the row representing it is added into the [P1 Actual table](#).
