

Working with Actual Resources Structure diagram

Actual Resources Structure diagram is used to model typical and actual forms of the organizational relationships.

To create an typical Actual Resources Structure diagram

1. Create Organizations, Posts, and Persons.
2. Display the generalizations (general-specific relationships) and compositions (whole-part relationships) between them.

To create an actual Actual Resources Structure diagram

1. Create Actual Organizations, Actual Posts, and Actual Persons.
2. Relate Actual Organizational Resources with Actual Organization Relationship.

You can display:

- the Competence of the Organizational Resources.
- the Operational Resource that is in charge of others using the Commands relationship.
