

# Working with Actual Projects to Capabilities Mapping matrix

Actual Projects to Capabilities Mapping matrix describes the mapping of programs and projects to capabilities to show how the specific projects and program elements help to achieve a capability.

The rows of this matrix are Actual Projects and the columns are Capabilities.

To create a Actual Projects to Capabilities Mapping matrix

---

- 1. Specify **Row Scope** (Actual Projects).
- 2. Specify **Column Scope** (Capabilities).
- 3. Click .

Actual Project has Actual Projects Milestone with the assigned Actual Resources typed by Exhibit Capabilities.

Both transitive structures of relations map Capabilities to Actual Projects. The mapping is displayed in the Matrix.
