Creating A8 Standards table

To create an A8 Standards table, do either

- Add a new element by clicking the **Add New** button and select element. The choose the element owner in the **Select Owner** dialog.
- Add the existing elements by clicking the **Add Existing** button and in the **Select UAF element** dialog select the elements.
- Assign one or more Standards or Protocols to each row that the particular UAF element must conform to by clicking the **…** button on any cell in the **Standard/Policy** column.
