

# Generating DARS report in A1

Before generating an A1 DARS report, you must load the DARS template in A1 diagram and provide the template with relevant data.

To load the DARS template in A1

1. Select the Architecture Description from the Containment tree and open its Specification window.
2. Click the **Load DARS Template** button to load DARS template.

3. Fill in the extension property values for the A1 DARS report.

Specification of Architectural Description SAR Satellite Aid Tracking System

**Specification of DARS Template properties**  
Specify properties of the selected DARS Template in the properties specification table. Choose the Expert or All options from the Properties drop-down list to see more properties.

**SAR Satellite Aid Tracking System**
