Message

Actual Project Milestone does not have Resources assigned

Description

Actual Project Milestone should have the System Resource assigned.

Severity

Info

Context element

Actual Project Milestone

Solvers

- **Select System Resources** - the System Resource is selected.
- **Create System Resource** - the System Resource is created.

Example

The image shows two screenshots of the 'Capability Assessment Complete' dialog box, illustrating the process of assigning a resource to an Actual Project Milestone.

Top Screenshot: The dialog box is titled 'of Actual Project Milestone Capability Assessment Complete'. The 'Actual Resource' field is empty. The 'Actual Project Milestone' section shows 'Name: Capability Assessment Complete' and 'Kind:'. The 'Actual Resource' field is highlighted with a red border.

Bottom Screenshot: The dialog box is titled 'of Actual Project Milestone Capability Assessment Complete'. The 'Actual Resource' field now contains 'C2 Center', which is highlighted with a green border. The 'Actual Project Milestone' section shows 'Name: Capability Assessment Complete' and 'Kind:'. The 'Actual Resource' field is highlighted with a green border.

An orange arrow points from the top screenshot to the bottom screenshot, indicating the transition from an unassigned state to a state where a resource is assigned.

Actual Resource for Actual Project Milestone is assigned
