

Applying actual project status in NPV-1 diagram

To apply the actual project status to a new milestone

1. From the milestone shortcut menu, select **Apply Status**.
2. Specify the actual project status by following steps of the **Project Status Application Wizard**.

To edit the actual project status

1. From the milestone shortcut menu, select **Edit Status**.
2. Edit the actual project status by following the steps of the **Project Status Application Wizard**.

If two or more milestones overlap, from the shortcut menu select **Specify Project Status** and then select the milestone you want to edit the status for.
