

Comparing projects

The Compare Projects functionality allows you to compare:

- Two Teamwork Server project versions
- Two Teamwork Cloud project versions
- Open Teamwork Server project with a local or another Teamwork Server project version
- Open Teamwork Cloud project with another Teamwork Cloud project version
- Open local project with a Teamwork Server project version

Various different properties of the elements, that share the same ID in different projects, are compared.

 This functionality is available in Architect and Enterprise editions only.

Basic concepts

For a better understanding of the further material, learn the following concepts.

Concept	Description
Base	The original project version without changes.
Compared	A project version that contains modifications added to original project version.
