Working with Comments from a Modeling Tool

The new version of Cameo Collaborator for Teamwork Cloud allows you to view comments in a document and reply to them from the modeling tool. Save time by instantly navigating from comments to commented elements in your model and update them without leaving the modeling environment.

Click a graphical comment to navigate to the commented diagram in the model and show the comment on the diagram pane.

Click a textual comment to navigate to the commented element in the model.

Downloading Attached Files

Download the files attached to a model directly from the Cameo Collaborator document. If a model has attached files, you can access them without opening a modeling tool.

Other

- The comment notification badge appears on the app bar whenever new comments are added, enabling you to instantly see if there are any unread comments in an open Cameo Collaborator document.

- Now you can specify a dynamic URL for the IFrame presentation element when creating Cameo Collaborator templates.
