

# Visualizer Wizard tab

**Visualizer Wizard** tab is dedicated to adding, editing, or deleting a hyperlink that instantly opens the [Model Visualizer](#) by clicking the hyperlink in text or by double clicking an element or diagram. The Model Visualizer creates a new diagram according to the selected scope and wizard template.

Edit Hyperlink

Add, edit or delete a link to a visualizer wizard

The wizard can be started by clicking this link.

Help

The example of specified options in the Visualizer Wizard tab.

All boxes and buttons of the **Visualizer Wizard** tab are described in the table below.

Name	Description
Text to display box	Shows the text that will be displayed as a hyperlink. If you select the text before opening this dialog, you will see that text in this box. If you change the displayed text in this box, it will be changed in the HTML text field too. If this field is empty, you can type a text and it will be added in the HTML text.  It is available only when adding a hyperlink in the text.
Select scope for Wizard box	Displays the element kind and name selected as the scope.
	Opens the the <b>Select scope for Wizard</b> dialog where you can select the scope.
Select Wizard template drop-down box	Select one of the following wizard templates: <ul style="list-style-type: none"><li>- <b>Class Diagram Wizard</b>. <a href="#">Learn more about Class Diagram Wizard &gt;&gt;</a></li><li>- <b>Package Dependency Diagram Wizard</b>. <a href="#">Learn more about Package Dependency Diagram Wizard &gt;&gt;</a></li><li>- <b>Package Overview Diagram Wizard</b>. <a href="#">Learn more about Package Overview Diagram Wizard &gt;&gt;</a></li><li>- <b>Hierarchy Diagram Wizard</b>. <a href="#">Learn more about Hierarchy Diagram Wizard &gt;&gt;</a></li><li>- <b>Realization Diagram Wizard</b>. <a href="#">Learn more about Realization Diagram Wizard &gt;&gt;</a></li><li>- <b>Activity Decomposition Hierarchy Wizard</b>. <a href="#">Learn more about Activity Decomposition Hierarchy Wizard &gt;&gt;</a></li><li>- <b>Content Diagram Wizard</b>. <a href="#">Learn more about Content Diagram Wizard &gt;&gt;</a></li><li>- <b>Generic Table Wizard</b>.</li></ul>
Select from the list box	Displays all previously used references consisting of the selected scope and wizard template. You can select them to fill in the <b>Select scope for Wizard</b> box.
The Clear button	Deletes all previously used references from the <b>Select from the list</b> box.

The <b>Active</b> check box	<p>Activates the hyperlink if selected.</p> <p>It is available only when adding hyperlink on element or entire diagram.</p> <div data-bbox="310 226 1485 315" style="border: 1px solid red; padding: 5px; margin-top: 10px;">  <b>Active check box rule</b>  Only one hyperlink can be active. By default the last added hyperlink is active. </div>
