

Creating SV-7 Actual table

Before creating SV-7 Actual table, [SV-7 Typical table](#) must be created.

To create SV-7 Actual table, do either

- Click the **Add New** button to add a new measurable resource. Select one or more resources that have at least one Measurement Set defined (see [SV-7 Typical](#)) from the **Select UAF Element** dialog. Specify the values of each Actual Measurement in the table cells.
- Click the **Add Existing** button to add the existing Actual Measurement Set or measurable resources. Select the existing Actual Measurement Sets or resources from the **Select UAF Element** dialog.
- Click the **Add Missing Measurements** button to add the missing Actual Measurements in the table.

The created instances are stored in the same location as the Actual Measurements table.
