Creating SV-5b matrix

The Operational Activity to Systems Traceability Matrix (SV-5b) describes the direct and indirect (using the implied relations) mapping between the Systems and Operational Activities.

The rows of the SV-5b matrix represent resources and the columns represent Operational Activities.

To create a SV-5b matrix

- 1. Specify the **Row Scope** (Resources Artifacts).
- 2. Specify the Column Scope (Operational Activities).
- 3. Click 🔁

Resources implements Operational Activities using the Implements relationship.
