

Diagram Creation Wizard

The **Diagram Creation Wizard** is used to create the following diagrams:

- [CV-3 Capability Phasing](#) (DoDAF)
- [PV-2 Project Timelines](#) (DoDAF)
- [AcV-2 Programme Timelines](#) (MODAF)
- [StV-3 Capability Phasing](#) (MODAF)
- [NPV-1 Programme Portfolio Relationships](#) (NAF v.3)
- [NCV-5 Capability to Organisational Deployment Mapping](#) (NAF v.3)
- [Lr Lines of Development](#) (NAF v.4)
- [Cr Capability Roadmap](#) (NAF v.4)
- [Personnel Availability Gantt Chart](#)

The name of this wizard depends on particular diagram name: **<diagram name> Creation Wizard**:

To open the **Diagram Creation Wizard**

- [CV-3 Creation Wizard](#)
- [PV-2 Creation Wizard](#)

1. Right-click on **Viewpoint** Package and select **Create Diagram** > **<diagram name>**.
The **Diagram Creation Wizard** opens.

- [StV-3 Creation Wizard](#)

The wizard consists of three steps:

- [NPV-1 Creation Wizard](#)

- [NCV-5 Creation Wizard](#)

- 1 [Name and owning package specification](#)

- 2 [Lr Lines of Development Creation Wizard](#)

- 3 [The chart property setting](#)

- [Cr Capability Roadmap Creation Wizard](#)

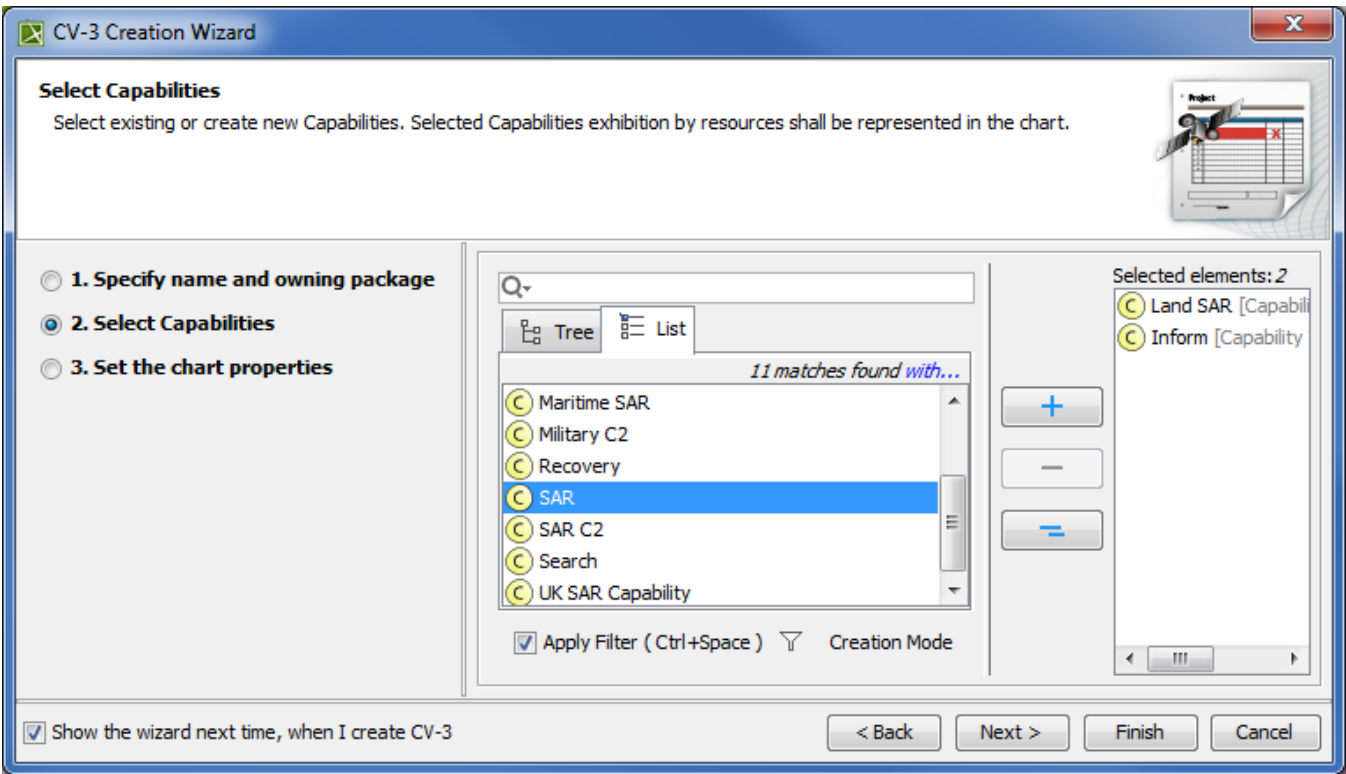

Name and owning package specification Wizard

In this step, you can specify the diagram name and select or create the owning package. If you want to create a new owning package, use the **Create Owner** button. Also, you can clone an existing package by clicking the **Clone** button.

The screenshot shows the 'CV-3 Creation Wizard' dialog box. The title bar says 'CV-3 Creation Wizard'. The main area has the heading 'Specify name and owning package' and the instruction 'Type the chart name and select existing or create a new package to own the chart.' On the left, there are three radio buttons for steps: '1. Specify name and owning package' (selected), '2. Select Capabilities', and '3. Set the chart properties'. On the right, there is a text field 'Type chart name:' containing 'NMCapabilityPhasing'. Below it is a tree view 'Select package to own the chart:' showing a hierarchy: 'SAR Satellite Aid Tracking System' (expanded) containing 'All Views Viewpoint' and 'Capability Viewpoint'. Under 'Capability Viewpoint' are sub-packages 'CV-1', 'CV-2', 'CV-3' (highlighted in blue), 'CV-4', and 'CV-5'. At the bottom right of the tree view are two buttons: 'Create Owner' and 'Clone'. At the very bottom of the dialog box, there is a checkbox 'Show the wizard next time, when I create CV-3' which is checked, and four buttons: '< Back', 'Next >', 'Finish', and 'Cancel'.

Capability selection

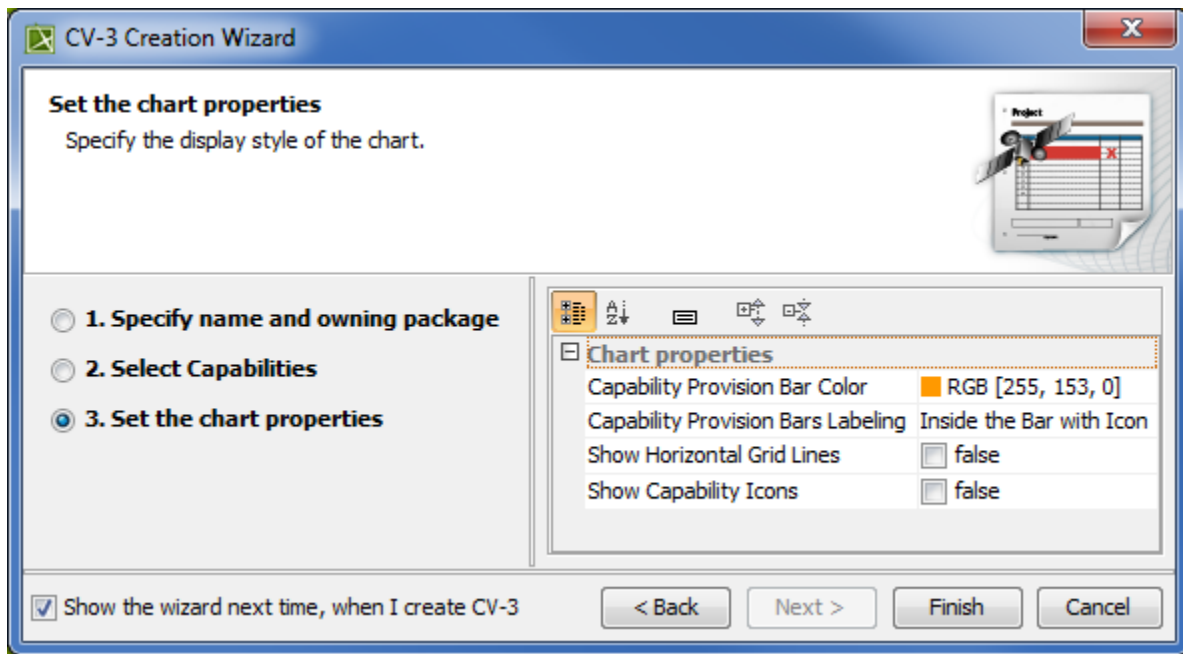

In this step, you can select Capabilities from the list.

Button	Description
	Selects a Capability. <div> Alternatively, double-click the Capability.</div>
	Removes a Capability.
	Removes all Capabilities.

The chart property setting

In this step, you can set the display style of the chart.

 If you do not wish to use the this wizard next time, clear the **Show the wizard next time, when I create <diagram name>** check box.

To restore the usage of the **Diagram Creation Wizard**
