Document Modeling Plugin reports

Issue

The UPDM 2 Plugin has four predefined web report templates:

- DoDAF Web Report
- MODAF Web Report
- NAF Web Report
- NAF 4.0 Web Report

Learn more about the web reports of UPDM 2 Plugin >>

If one of the report mentioned above was attached to the UPDM 2 Plugin project before the migration to UAF Plugin, you are not allowed to generate this report after the migration. The UAF Plugin does not have predefined web report templates that are created using Document Modeling plugin.

Solution

If you need to generate the web reports from the UAF Plugin, use one of the following solution:

- Install the Document Modeling Plugin and create a custom report template.
  Learn how to install plugin >>
- Publish the UAF project by using Cameo Collaborator.
  How to work with Cameo Collaborator >>
