

Creating CV-6 matrix

A CV-6 Capability to Operational Activity Mapping matrix describes the mapping between Capabilities required by an Enterprise and the Operational Activities that these Capabilities support.

The rows of the matrix are Capabilities and the columns are Operational Activities.

To create a CV-6 matrix

- 1. Specify the **Row Scope** (Capabilities).
- 2. Specify the **Column Scope** (Operational Activities).
- 3. Click the **Rebuild** button.

Operational Activities maps to Capabilities using the Activity Part of Capability relationship.

To map an Operational Activity to a Capability

- 1. Double-click an empty intersection.

To remove the relation

- 1. Double-click a full intersection between the desired elements.
