

Applying military symbols

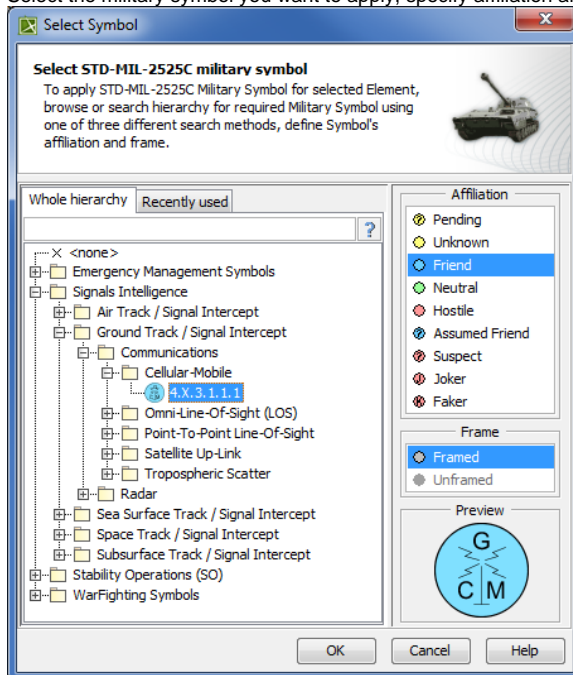

Military symbols can be applied to resources in the [SV-1](#), [SV-2](#) and [SV-4](#) views.

To apply military symbol for resource shape

1. Open the [Select Symbol](#) dialog:
 - Create resources from MIL-STD-2525C Symbology toolbar.
 - Select resource and click  on the smart manipulator toolbar.
 - Open the Specification window of any UPDM element, select **Image** property cell and click .

2. Select the military symbol you want to apply, specify affiliation and frame style.

3. Click **OK**.
The military symbol is applied for resource shape.
