Grouping Tags inside Stereotype

When a stereotype has many properties, it is very useful to group these properties into named groups. For this purpose, every property could have a tagged value with its group name.

To group tags

- 1. Open the Specification window of the stereotype property.
- 2. Click the Tags property group.
- 3. Select the groupName property and assign a value for it:
- a. Click the **Edit Value** button b. In the **Value** area, type a group name.
