

Downloading the migration tools

You need the migration tools to:

- [Migrate your database to TWCloud 19.0 SP2](#)
- [Migrate UML meta-model to version 2.5.1](#)

The Cassandra database and UML meta-model migration tools, TWCloud installer, and Data Manager are available for download at the [same location](#).

To download the database migration tool and UML meta-model migrator

1. Open www.nomagic.com.
2. Click the **Login** button. You will be directed to https://www.magicdraw.com/main.php?ts=login&cmd_show_login=1&show_confirm=1&menu=login.
3. Type your login name/email and password, and then click .
4. Select **Teamwork Cloud** from the **Download** list on the left side of the page.
5. Select the version and edition that you want to download and click .
6. Click either **migrator_190_sp2** or **UML_migrator_190** for your operating system. The download file page will open.
7. Select the mirror site near you and click **Download** button to download the file to your computer.
