

Adding IBM Rational DOORS Data Sources

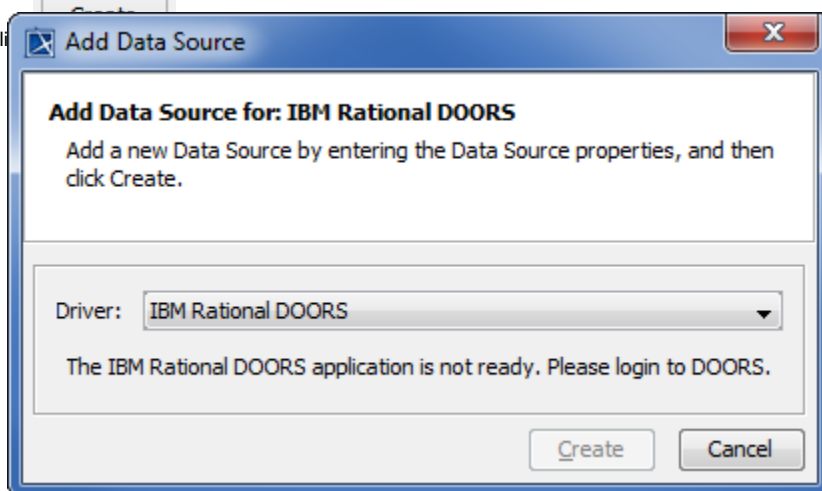

To add an IBM® Rational® DOORS® 8.x or 9.x Data Source

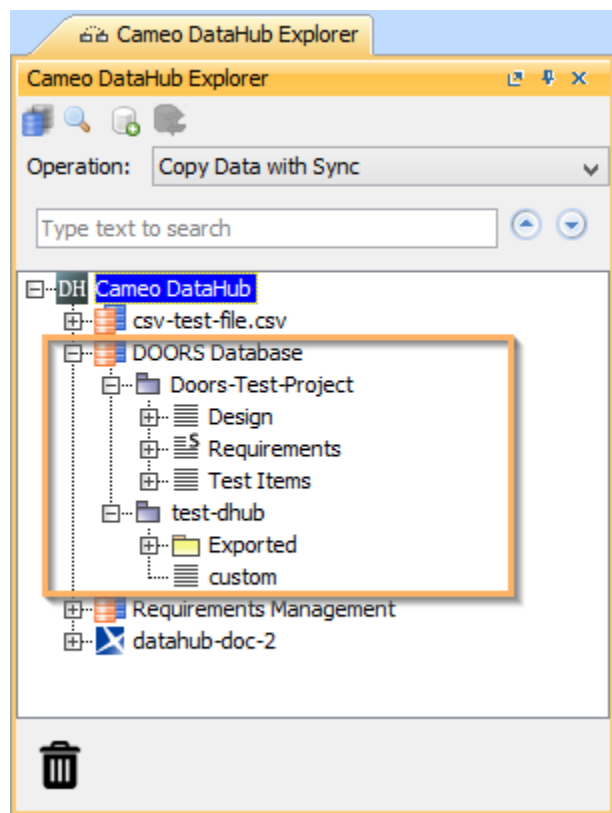

1. Click  on the **DataHub Explorer** tab. The **Add Data Source** dialog opens.
2. From the **Driver** drop-down list, choose **IBM® Rational® DOORS®**.

Note
Before adding an IBM® Rational® DOORS® Data Source, you need to [start the DOORS client](#) on your machine and then log on to DOORS, otherwise MagicDraw® will display an error message as follows.

3. Click
