Customizing a role

On this page

- Edit role details
- Add or remove permissions
- Assign a role
- Remove a user/group from a role

Edit role details

When you view role details in the Role pane, you can edit the details of a custom role in the Role details card. This is accomplished by one of the following methods:

- In the Role details card, click Edit to edit details.
- Click next to the role name and select to Edit role details.

Add or remove permissions

You can add or remove permissions from a role you create (custom role) on the Role pane. A role needs to have at least one permission.

To add or remove permissions from a role

- 1. On the Roles application do one of the following:
 - Click the role to open the Role pane. In the Permissions card, click the Change button.
 - Click and select to Change permissions.
- 2. Select the checkbox of the permission you want to add, or clear it to remove the permission from the role.
- 3. Click the Save button to save the changes.

Assign a role

You can assign a global or a custom role to a user/group, as well as create a new custom role and assign it simultaneously. You cannot assign resources to a user/group who does not have a role.

Tip can use the Role Assignments section in either the Resource application or User application to assign a role to a user/group. Click here to learn

more on how to assign a resource to a role

To assign a role to a user/group

- 1. In the Roles application, click the role you want to assign. The Role pane opens.
- 2. In the Role Assignments card, click the Change button.
- 3. Select to Add user/group. In the Add users/groups search bar enter a name. From the list that opens, select a user/group.
- 4. The selected user/group will be added to the Role assignments card.
- 5. Click the Save button to save the changes.

Remove a user/group from a role

You can remove a user/group from a role in the Roles application. When you remove a user/group from a role, you take away the permissions associated with the role, which will cause any resources assigned to the role be removed as well. When you remove a user group from a role on the Users application, you cancel the role assigned to all users in the group.

To remove a user/group from a role

- 1. On the Roles application, do one of the following:
 - Click a role, the Role pane will open. In the Role assignments card click the Change button.
 - Click and select to Change role assignments.
- 2. The Change role assignments pane will open. Click the Remove button to remove the user/group from the role. The selected user will be removed from the list.
- 3. Click the Save button to save the changes.
