

Download the FlexNet license key to a particular machine

Download the FlexNet license key to a particular machine

- 1. Log on at [nomagic.com](#) as a license owner.
- 2. At the right side of the webpage, under **Members**, click **License List**.
- 3. Paste the [copied Host ID](#) to the **Hostid** box and click **Save**. Wait until you're informed that the Host ID was saved successfully.

Floating License Node Locking:

Floating licenses are locked to a particular machine on which a FLEXnet server is running. The Hostid of the machine has to be entered before requesting floating license keys. To determine a hostid please refer to [Determining a hostid instructions](#).

Hostid:

Save

Hostid saved successfully.

- 4. In the **Floating products** table, click the **Send key** or **Download key** to receive the license locked to that particular machine. The license key file includes the purchased floating licenses of all products in the license list.

Floating products		
Product	Qty	SA
