

Adding Data Sources for IBM Rational DOORS

To add an IBM® Rational® DOORS® Data Source

1. On the **DataHub Explorer** toolbar, click the **Add Data Source**  button. The **Add Data Source** dialog opens.

2. From the **Driver** drop-down list, choose **IBM® Rational® DOORS®**.
3. Click . The DOORS Data Source opens in the **DataHub Explorer** tab.

Warning

Before adding an IBM® Rational® DOORS® Data Source, you must start the DOORS client on your machine, otherwise MagicDraw® generates an error dialog box.
