

Creating SV-5b matrix

The Operational Activity to Systems Traceability Matrix (SV-5b) describes the direct and indirect (using the [implied relations](#)) mapping between the Systems and Operational Activities.

The rows of the SV-5b matrix represent resources and the columns represent Operational Activities.

To create a SV-5b matrix

1. Specify the **Row Scope** (Resources Artifacts).
2. Specify the **Column Scope** (Operational Activities).
3. Click .

Resources implements Operational Activities using the Implements relationship.
