

Strategic Parameters

Description

The Strategic Parameters (St-Pm) view depicts the measures (metrics) of strategic elements.

The intended usage of the Strategic Parameters (St-Pm) view includes:

- Definition of performance characteristics and measures (metrics).
- Identification of non-functional requirements.

Implementation

The Strategic Measurements (St-Pm) domain is represented by:

- [Environment diagram](#).
- [Typical Measurements table](#).
- [Actual Measurements table](#).
- Actual Measurements (.xlsx).
