

Creating P1 Resource Types Actual Quality Requirements table

Before creating P1 Resource Types Actual Quality Requirements table, the [P1 Resource Types Typical Quality Requirements table](#) should be created firstly.

To create P1 Actual table, do either

- Add a new measurable Resource by clicking the **Add New** button and select one or more Resources that have at least one Measurement Set, defined (see [P1 Typical](#)). Specify the values of each Actual Measurement in the table cells.
- Add the existing Actual Property Sets by clicking the **Add Existing** button and select the existing Actual Property Sets.
- Add the missing Actual Measurements by clicking the **Add Missing Measurements** button to update model changes to the table.

The created instances are stored in the same location as the Actual Measurements table.
