

# Operational Exchange Manager dialog

The Operational Exchange Manager dialog enables to analyze and manage the Operational Exchanges data. You can edit existing Operational Exchanges by adding new Operational Exchange Items, realizing or ignoring existing Operational Exchanges on selected relationship, specifying producing and consuming Operational Activities.

To open an **Operational Exchange Manager** dialog

1. Select an Association, Operational Connector, Operational Control Flow, Operational Object Flow, or Operational Message in the diagram pane.
2. On the smart manipulator, click  .  
The **Operational Exchange Manager** dialog opens.
