

Building NPV-1 matrix

It is recommended to create an NOV-4 before creating an NPV-1.

The NPV-1 is an editable matrix displaying the responsibility of Actual Organizational resources (Actual Organizations or Actual Posts) for Actual Projects. The rows in the NPV-1 Responsibility Matrix represent Actual Organizational resources (Actual Organization or Actual Post) and the columns represent Actual Projects.

To build an NPV-1 matrix

1. Specify the **Row Scope** ().
2. Specify the **Column Scope** (Actual Projects).
3. Click the **Rebuild** button.
