Creating CV-3 diagram

When you choose to create CV-3 diagram, CV-3 Creation Wizard opens.

To create a CV-3 diagram from the wizard

- 1. Right-click the CV-3 Package and select Create Diagram > CV-3 Capability Phasing.
- 2. Follow the steps of the CV-3 Creation Wizard.
- 3. Click **Finish** when you are done.

Ou do not wish to use the CV-3 Creation Wizard next time, clear the Show the wizard next time, when I create CV-3 check box.

To create an CV-3 diagram manually when CV-3 Creation Wizard is disabled

- 1. Right-click the CV-3 Package and select Create Diagram > CV-3 Capability Phasing.
- 2. Type the diagram name.
- 3. Press Enter.
- 4. The blank CV-3 chart is created.

Prestore the usage of the CV-3 Creation Wizard

- 1. Select Options > Environment.
- 2. In the Environment Options dialog select the UPDM options group.
- 3. In the General properties, set the Show CV-3/StV-3/NCV-3 Creation Wizard each Time Creating New Chart property value to true.
