

# NPV-1 Programme Portfolio Relationships

## Description

NPV-1 view products represent an organizational perspective on programmes.

## Implementation

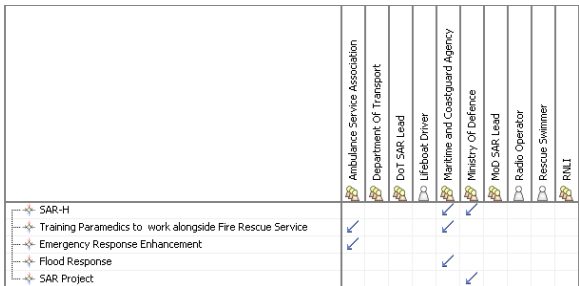

NPV-1 can be represented using:

- An NPV-1 Programme Portfolio relationship diagram which is based on the UML Class diagram.
- An NPV-1 Responsibility Matrix which is an editable Dependency Matrix.
- NPV-1 realized as a Gantt Chart.

## Sample

NPV-1 Programme Portfolio Relationships

NPV-1 Programme to Capability Mapping

## Related views

In essence, the NPV-1 is an organizational breakdown consisting of actual organizations (see NOV-4). The view is strongly linked with the NCV-4 which shows capability clusters and dependencies.
