

# Date and Time Settings dialog

The **Date and Time Settings** dialog is provided for defining a particular date and time. The dialog supports ISO8601, the International Standard for the representation of date and time.

The dialog can be used for elements or views that have date and time properties (e.g. Actual Project Milestone, Actual Project Enterprise Phase, etc.).

To open the **Date and Time Settings** dialog

1. Open element's Specification window.
2. Select the **Date** property value cell and click . The **Date and Time Settings** dialog opens.

Dialog element	Element type	Description
Set the date and time	Drop-down list	A date and time value that exists in the model. Select a new date and time value from the drop-down list.
Select timeline	Text box	A package for the data grouping.
