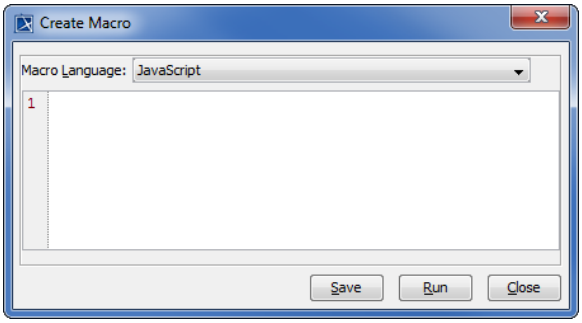
Creating a Macro

Once you have selected a default macro language (see Selecting a default macro language), you can create a new macro by using the **Create Macro** dialog, see figure below. The dialog allows you to specify a macro language, enter source code, and save it.

To create a new macro

---

1. Click **Tools** > **Macros** > **Create Macro** on the **MagicDraw** main menu. The **Create Macro** dialog will open, see figure below.



2. Select a macro language in the **Macro Language** box.
3. Enter source code in the text box.
4. Click 
to test and make sure that the source code works properly.
5. Click 
. The **Macro Information** dialog will open. Follow the steps described in *Adding a Macro and Its Information*.
6. After clicking **OK** in the **Macro Information** dialog, the new macro will be saved in the location you have specified in the **File** text box.
