

Creating Dependency Matrix

The matrix element in the model is similar to the diagram element. After creating a new matrix, it appears in the [Model Browser](#) as a model element.

To create a Dependency Matrix

1. In the Containment tree, select an element that can be the owner of the generic table.
2. Do one of the following:
 - From the main menu, select **Diagrams > Create Diagram**. Type "depe" and press **Enter**.
 - On the main toolbars, click the **Create Diagram** button. Type "depe" and press **Enter**.
 - Press **Ctrl+N**. Type "depe" and press **Enter**.
 - Right-click the element and from the shortcut menu select **Create Diagram > Analysis Diagrams > Dependency Matrix**.

The newly dependency matrix opens on the right side of the application window.

3. Type the name of the matrix.
4. [Select criteria](#) for the matrix.
5. Click the **Refresh**  button. The matrix is created.

You can also create dependency matrices using a [custom dependency matrix type](#).
