

# Spelling Checker

Spelling Checker enables you to:

- [Check spelling as you type](#). A shortcut menu provides spelling options. Right-click the word underlined in red to enter the shortcut menu and display the Spelling commands. You can also enter words in a customized dictionary.
- [Check the spelling of a whole project or of a selected part](#). You can list all the spelling errors found in a project and easily correct them.
- [Set Spelling Checker options](#). You can set spelling checker options, such as skipping numbers or uppercase words, in the [Environment Options](#) dialog.
- [Add a spell checking dictionaries](#). All "Open Office" supportive spelling languages can be added to the existing ones.
