Applying OMG SysML Style

You can apply the visual style of the OMG SysML Specifications (OMG SysML style) to your SysML model.

To apply the OMG SysML style to a SysML project

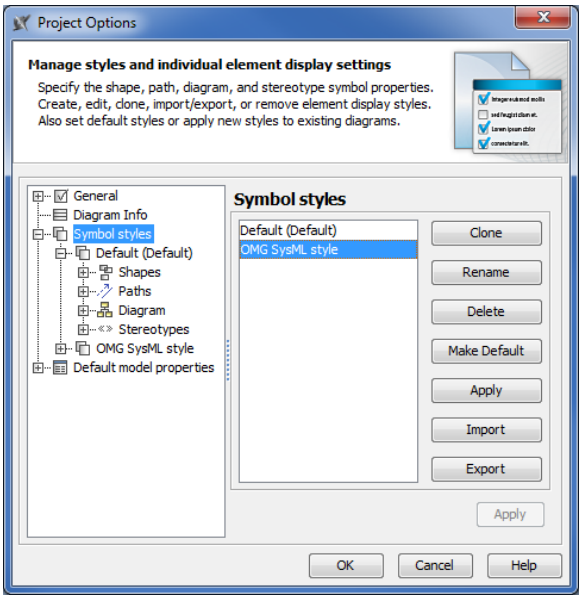
1. In the main menu, select **Options** > **Project**.
2. In the **Project Options** dialog, choose the **Symbol styles** on the left and select the **OMG SysML style** on the right.

   > If you do not see the **OMG SysML style**
   >
   > a. Click the **Import** button. The **Open** dialog opens.
   >
   > b. Open the ***<md.install.dir>/templates/SysML directory*** and select **OMG SysML style.stl**.
   >
   > c. Click **Open**.

3. Click the **Make Default** button.
4. Click **OK**.
   Your SysML project uses OMG SysML style as a default style.

To apply OMG SysML style to a SysML diagram

1. In the main menu, select **Options** > **Project**.
2. In the **Project Options** dialog, choose the **Symbol styles** on the left and select the **OMG SysML style** on the right.
3. Click the **Apply** button.
4. In the **Select Diagrams** dialog, select a SysML diagram(s) and click **OK**.
5. Click **OK** in the **Project Options** dialog.



> Applying OMG SysML style to existing SysML diagrams might distort the diagrams. Use the automated layout features that optimize diagram layout for viewing.
