Adding the license to Teamwork Server

On this page

Adding the license key

1. In the **Teamwork Server License Manager** dialog, click the **Select License Key Files** button.
2. In the **Select License Key File** dialog, select the license key file.
3. Click **Open**.

> To check the license information at a later time, click the **License Manager** button in the Teamwork Server dialog.

Adding the license key from a command line

1. Run the following:

```
For Windows: $teamwork_install_dir/bin/teamwork_server_nogui.exe
For UNIX/Linux: $teamwork_install_dir/bin/teamwork_server_nogui
```

2. Type the path to the license key file and the file name (for example, *C:\key\MagicDraw_18_4_TeamworkServer_key.txt*) and press Enter.
3. Press *y* and Enter, to apply the key.
4. Do one of the following:
   - Press *y*, if you want to import the configuration files. In this case, you will be asked to enter the previous installation path.

     > When choosing to import the configuration files, you can choose one of the following:

   - Press *n*, if you do not want to import the configuration files. Teamwork Server with administrative permissions.
     - Press y and then Enter, if you want to start the Teamwork Server with administrative permissions.
     - Press n and then Enter if you want to start the Teamwork Server without administrative permissions.
