

Introduction to Resources

Resources is a web app that runs on [Web Application Platform](#). It allows you to access and manage [Teamwork Cloud](#) projects, [Cameo Collaborator for Teamwork Cloud](#) documents, and [OSLC resources](#). In a repository, all resources are arranged into categories.

Installation

The Resources app is one of the Web Application Platform plugins. In order to use it, you have to [install Web Application Platform](#) for your organization.

To learn how to work with resources in the Resources app, see:

- [Opening the Resources app](#)
