App bar

The app bar is located on the top of a published model portal. You can perform the following actions from the app bar:

App bar icon	Icon description
	Click to show or hide the navigation pane.
	Click and select a Cameo Collaborator document view to open it. This icon appears next to the current document view name if the document has multiple views.
	Click and type a search phrase in the document search box to find the content that matches or includes the entered text (e.g., element names).
	Click to show or hide the comments pane.
	Click and select a web app to open it (e.g., Resources, Users, Roles, etc.).
	Click and select **Sign out** to sign out of the current user account.
	Click and select the action you want to perform: • **Document view**/**Model view**- to switch from the Model view to the Document view mode or vice versa. • **Show/hide paragraph links to model editor** - to enable or disable hyperlinks to a modeling tool for all paragraphs in the current document. • **Subscribe to/unsubscribe from email notifications** - to enable or disable email notifications about new comments or comment replies in the current document. • **Document information** - to see detailed Cameo Collaborator document and project information. • **Help** - to open the Cameo Collaborator for Teamwork Cloud documentation.
