Creating Resource Exchange in SvcV-3a matrix

To add new Resource Exchange

---

1. Right-click the intersection in the matrix and select **Add New Resource Exchange**.
2. Follow the steps of the **Realized Resource Exchange** wizard.
3. Click **Finish** when you are done.
   A new Resource Exchange appears in the selected intersection.

To remove an existing Resource Exchange

---

1. Right-click the filled intersection.
2. Under the **Delete** section, choose the Resource Exchange you want to remove from the model.
