

Modifying criteria through the legend

You can change the style of the criteria relationships and select other criteria through the map legend.

To change the criteria style

1. Double-click the Legend. The **Relation Criteria** dialog opens.
2. In the Relation Criterion area, select the criteria for which you want to change the style.
3. Select the Style cell and click .
4. In the **Style** dialog, choose the line color and style.
5. Click **OK**, when you are done.

To select other criteria

1. Double-click the Legend.
2. In the **Relation Criteria** dialog choose the **Simple Navigation** property group.
3. Click to clear the **Show Relations Criteria Available Only for Context** check-box. The list of available criteria is displayed.
4. Select the preferred criteria.
5. Click **OK**, when you are done.
