

Summary and Overview

Description

The Summary & Overview viewpoint is for modeling the executive-level summary information in a consistent form. It provides executive-level summary information in a consistent form that allows quick reference and comparison between architectural descriptions.

The Summary and Overview Measurements (Pm-Me) domain depicts the measurements. The intended usage of the The Summary and Overview Measurements (Pm-Me) domain includes:

- Definition of performance characteristics and measurements.
- Identification of non-functional requirements.

Implementation

The Summary & Overview domain is represented by:

- [Working with Summary and Overview diagram](#). It shows a quick overview of an architecture description and summary of analysis. In the initial phases of architecture development, it serves as a planning guide. Upon completion of an architecture, it provides a summary of findings, and any conducted analysis.
- Reports (.docx):
 - Summary and Overview.
 - All View.

The Summary and Overview Measurements (Pm-Me) domain is represented by:

- [Typical Measurements table](#).
- [Actual Measurements table](#).
- Actual Measurements (.xlsx).
