Creating L3 Node Interactions table

You can add new or existing Operational Exchange to fill in a L3 table.

To add new Operational Exchange

---

1. In the L3 diagram toolbar, click the **Add New** button. The **Realized Operational Exchange** wizard opens.
2. Follow the steps of the wizard.
3. Click **Finish** when you are done.
   The rows with created Operational Exchanges are added to the table.

To add an existing Operational Exchange

---

1. In the L3 diagram toolbar, click the **Add Existing** button. The **Select Operational Exchange** dialog opens.
2. Select Operational Exchanges by clicking **+** button.
3. Click **OK** when you are done.
   The rows with selected Operational Exchanges are added to the table.

- Operational Exchange Identifier, Operational Exchange Item Name, Producing and Consuming Activities, and wide range of measurement cells are allowed to edit in the table.
- Sending Performer, Receiving Performer, and Implements cells are read only.
- You may use an L1 view to create or modify an Operational Exchange.
- You can use **Operational Exchange Manager** dialog that enables to analyze and manage the Operational Exchange data.
