

NTV-1 Technical Standards Profile

Description

A NTV-1 defines the technical and non-technical standards, guidance, and policy applicable to the architecture.

As well as identifying applicable technical standards, the NTV-1 may document the policies and standards that apply to the operational or business context.

Implementation

NTV-1 can be represented by a NTV-1 table.

Sample

#	System element	Standard / Policy
1	 Boat	 GPS  VHF  AIS
2	 Fixed Wing Aircraft	 HF  UHF  VHF  IMM VHF
3	 Helicopter	 VHF  UHF  HF
