DataHub Explorer buttons and icons

The following table lists the icons in the **DataHub Explorer** tab.

Icon	Name	Description
	Cameo DataHub	The DataHub root.
	MagicDraw® Driver	The MagicDraw® driver to connect to a MagicDraw® project.
	Drivers	The drivers to connect to the other tools (CSV, IBM® Rational® DOORS®, IBM® Rational® DOORS® Next Generation, HP Application Lifecycle Management tools).
	Toggle showing only connected Data Sources	Hides all disconnected Data Sources in the **DataHub Explorer** tab.
	Toggle showing all Data Sources	Displays all Data Sources in the **DataHub Explorer** tab.
	Add Data Source button	Opens the **Add Data Source** dialog.
	Synchronize button	Starts the synchronization process.
	Disconnected Data Source	The Data Source (of MagicDraw®, IBM® Rational® DOORS®, a CSV file, or HP Application Lifecycle Management tools) disconnected from its source.
	Folder, Package	A folder or a Package.
	DOORS Link	A link in the IBM® Rational® DOORS® application.
	MagicDraw® relationship	A link in the MagicDraw® application.
	Item	Any items, e.g., an IBM® Rational® DOORS® object, MagicDraw® element, or CSV item.
	Create OSLC Query button	Opens the **OSLC Query Editor** dialog, allowing you to perform basic and advanced queries to an IBM® Rational® DOORS® Next Generation Data Source. This becomes enabled when you add an IBM® Rational® DOORS® Next Generation Data Source.
	DataHub explorer Trash Icon	Deletes an item when the item is dragged onto the icon. A confirmation dialog appears before deleting the item.
