

User guide

Welcome to the Teamcenter Integration plugin user guide! It will help you learn how to use the plugin and its features. Read the following sections or use the **Search** box to find a specific topic:

- **Connecting to Teamcenter server**
Learn how to connect to the Teamcenter server to start using the plugin.
- **Importing data**
Learn how to import data from Teamcenter to a modeling tool.
- **Exporting data**
Learn how to export data from a modeling tool to Teamcenter.
- **Data mapping**
See the default data mapping scheme that is used during data import/export, and learn how to customize the existing links between data types or create new ones.
