Uninstalling FlexNet license server

To uninstall the FlexNet server

1. Stop the server process:
     - In a FlexNet Server Publisher
     - By ending the *lmadmin* task process in:
         - Task Manager on Windows
         - Activity Monitor on OS X
         - System Monitor on Linux
2. Uninstall the server with an uninstaller specific to your operating system.
