# Modeling tools and plugins licensing

The product license is identified by the license key.

There are three license types: seat, mobile, and floating. Additionally, special licenses for the academic community are available: https://www.nomagic.com/services/academic-research.

Licensing scheme

- Add the license - add the obtained license file to the modeling tool.
- Activate the license at nomagic.com - log into the license owner account to activate the license at nomagic.com.
- Obtain a floating license for a modeling tool - obtain the license from the server.
