Installation and update

You can download and install the CSV Import plugin on your computer through the menu item **Resource** /Plugin Manager under MagicDraw Help menu.

To install CSV Import using the Resource/Plugin Manager

1. Click Help > Resource/Plugin Manager on the MagicDraw main menu. The Resource/Plugin Manager dialog, see figure below, will open.

2. Click on Plugins (no cost) and select the CSV Import check box, and then click

```
Download / Install
```

3. Once the installation is complete, a message dialog informing you that the installation is complete will open. Click **OK**.

4. Restart MagicDraw.

0

You need to restart MagicDraw upon installing the CSV Import plugin on your computer to allow MagicDraw to load the plugin correctly.

Free updates are available through the Resource/Plugin Manager menu item in MagicDraw.

To see if any update is available for your plugin

- 1. Click Help > Resource/Plugin Manager on the MagicDraw main menu. The Resource/Plugin Manager dialog will open.
- 2. Click Check for Updates > Check.
