Creating SV-6 matrix

You can add new or existing Resource Exchanges, Commands, and Controls to fill in an SV-6 matrix.

To add new Resource Exchange type

1. In the SV-6 matrix toolbar, click the **Add New** button. The **Realized Resource Exchange** wizard opens.
2. Follow the steps of the wizard.
3. Click **Finish** when you are done.
   The rows with created Resource Exchanges type are added to the matrix.

To add an existing Resource Exchange type

1. In the SV-6 matrix toolbar, click the **Add Existing** button. The **Select Resource Exchange** dialog opens.
2. Click **+** button to select one of the following Resource Exchange types:
   - Resource Exchange
   - Command
   - Control
3. Click **OK** when you are done.
   The rows with selected Resource Exchange types are added to the matrix.

ⓘ
   - Resource Exchange Identifier, Resource Exchanges Item Name, Producing and Consuming Functions, and wide range of measurement cells are allowed to edit in the matrix.
   - Sending Resource, Receiving Resource, and Implements cells are read only.
   - You may use an SV-1 view to create or modify a Resource Exchange.
   - You can use **Resource Exchange Manager** dialog that enables to analyze and manage the Resource Exchange data.
