# Working with Date and Time Summary Table

The **Date and Time Summary Table (Sm-Ov)** depicts all dates and times specified in the ISO8601 date-time format.

Adding the date-time elements into the table, you can see their defined values, owners, and the list of the elements in which the date-time elements are used as tagged values.

To create a table

1. In the Model Browser, select the owner for the new table.
2. Do one of the following:
   - Press Ctrl+N.
   - On the main toolbar, click ![Create Diagram] .
   - From the main menu, select **Diagrams** > **Create Diagram**.
   - Open the Content diagram and on its palette, click the **Create Diagram** button.
3. In the opened window, search for Date and Time Summary Table.
   An empty table is created.

When you have a table, you can start filling it out. Here you can add only the elements which already exist in the model.

To add existing model elements

1. In the table toolbar, click **Add Existing**. The **Select ISO8601 Date Time** dialog opens.
2. In the dialog, choose which date-time elements you need to add to the table.

   > If you need to add more than one element, click the Multiple Selection button.

3. Click **OK** when you are done.

The selected date-time elements are added as rows.
