

Creating L4-P4 Systems Function to Operational Activity Traceability Matrix

The Systems Function to Operational Activity Traceability Matrix (L4-P4) addresses the direct and indirect (using the [implied relations](#)) linkage between Functions described in P4 and Operational Activities specified in L4.

To create a L4-P4 Systems Function to Operational Activity Traceability matrix

1. Specify the **Row Scope** (Functions).
2. Specify the **Column Scope** (Operational Activities).
3. Click the **Rebuild** button.

Functions implements Operational Activities using the Implements relationship.

To map a Function to an Operational Activity

1. Click the intersection between the desired elements.
